Dear colleagues and friends,

We have great pleasure to welcome you to the Advanced Ceramic and Application X Conference organized by the Serbian Ceramic Society in cooperation with the Institute of Technical Sciences of SASA, Institute of Chemistry Technology and Metallurgy, Institute for Technology of Nuclear and Other Raw Mineral Materials and Institute for Testing of Materials. This Conference is dedicated to Prof. Dr. Vojislav Mitić, president of Serbian ceramic society, who passed away in September 2021.

It is nice to host you here in Belgrade in person. As you probably know, Serbia launched a vaccination campaign at the beginning of last year, so up to date more than 70 percent of the adult population has been vaccinated. Since there is no one statistic to compare the COVID19 outbreaks and fears for loved ones in different countries, we believe that we all suffer similarly during this pandemic. That is why we appreciate even more your positive attitude and readiness to travel in this uncertain time. We deeply hope that the ACA X Conference will be worth remembering, that you will respect all COVID-19 safety measures at SASA building, that you will have a nice time here and that ultimately you will return to your home safely. We are very proud that we succeeded in bringing the scientific community together again and fostering the networking and social interactions around an interesting program on emerging advanced ceramic topics. The chosen topics cover contributions from fundamental theoretical research in advanced ceramics, computer-aided design and modeling of new ceramics products, manufacturing of nano-ceramic devices, developing of multifunctional ceramic processing routes, etc.

Traditionally, ACA Conferences gather leading researchers, engineers, specialists, professors and PhD students trying to emphasize the key achievements which will enable the widespread use of the advanced ceramics products in the High-Tech industry, renewable energy utilization, environmental efficiency, security, space technology, cultural heritage, etc.

Serbian Ceramic Society was initiated in 1995/1996 and fully registered in 1997 as Yugoslav Ceramic Society, being strongly supported by American Ceramic Society. Since 2009, it has continued as the Serbian Ceramic Society in accordance with Serbian law procedure. Serbian Ceramic Society is almost the only one Ceramic Society in South-East Europe, with members from more than 20 Institutes and Universities, active in 9 sessions. Part of our members are also members of the Serbian Chapter of ACerS since 2019. Their activities in the organization of this conference is highly recognized. To them and all of you thanks for being with us here at ACA X.

Obralin Nino

Dr. Nina Obradović President of the Serbian Ceramic Society

essere dernutolit

Dr. Suzana Filipović President of the General Assembly of the Serbian Ceramic Society

Conference Topics

- Basic Ceramic Science & Sintering
- Nano-, Opto- & Bio-ceramics
- Modeling & Simulation
- Glass and Electro Ceramics
- Electrochemistry & Catalysis

Conference Programme Chairs:

Dr. Nina Obradović SRB Dr. Lidija Mančić SRB

Scientific Committee

Academician Antonije Đorđević Academician Zoran Popović Dr. Nina Obradović Dr. Lidija Mančić Prof. Dr. Rainer Gadow Prof. Dr. Marcel Van de Voorde Prof. Dr. Wei Pan Prof. Dr. Reuben Jin-Ru Hwu Dr. Richard Todd Prof. Dr. Hans Fecht Prof. Dr. Olivera Milošević Prof. Dr. Vladimir Pavlović Prof. Dr. Bojan Marinković Dr. Takashi Goto Dr. Steven Tidrow Dr. Snežana Pašalić Prof. Dr. Zoran Nikolić Dr. Nebojša Romčević Dr. Zorica Lazarević Dr. Aleksandra Milutinović-Nikolić Dr. Predrag Banković Dr. Zorica Mojović Dr. Nataša Jović Jovičić Prof. Dr. Branislav Vlahović Prof. Dr. Stevo Najman Prof. Dr. Vera Pavlović Dr. Nataša Đorđević Prof. Dr. Aleksandar Marinković Dr. Sanja Stojanović Prof. Dr. Nebojša Mitrović Dr. Suzana Filipović Dr. Darko Kosanović Dr. Dušan Božanić

- Refractory, Cements & Clays
- Renewable Energy & Composites
- Amorphous & Magnetic Ceramics
- Heritage, Art & Design

Conference Co-chairs:

Prof. Dr. Olivera Milošević SRB Prof. Dr. Rainer Gadow GER

Organizing Committee

The Tenth Serbian Ceramic Conference Advanced Ceramics and Application

Conference Information:

Conference location: Belgrade (Beograd) – the capital of Serbia, Serbian culture, education, science and economy, having about 2.5 million habitants. Belgrade is situated in South-Eastern Europe, on the Balkan Peninsula, at the confluence of the Sava and Danube Rivers in north- central Serbia. The official language is Serbian, while foreigners can use English.

Conference venue: Serbian Academy of Sciences and Arts - SASA, Great Hall (2nd floor) and Halls 2, 3 (1st floor), Knez Mihailova 35, Belgrade, Serbia.

Dress code: Serbian Academy of Science and Arts is a distinguished institution of supreme national importance. We kindly ask you to respect a dress code and not to wear short skirts and pants (above the knee); tank top and sleeveless shirts; flip-flops and open-toed sandals.

Covid-19 outbreak - information for conference participants:

Prevention and general precautions:

- avoid close contact (within 1 m) with people who are ill with fever, cough or respiratory symptoms;
- wear a face covering in enclosed environments;
- wash or sanitize your hands frequently after coughing, before preparing food or eating, after toilet use, after contact with ill persons, and during exposure to high traffic public areas;
- cover your mouth and nose with a disposable tissue when coughing or sneezing and use the nearest waste receptacle to dispose of it after use. If you do not have a disposable tissue, cough or sneeze in your elbow;
- strictly do not attend the conference if you are unwell. Stay at home or your accommodation if you become unwell, develop a fever or respiratory symptoms;
- if you or other participants in the conference hall are unwell, inform the conference organizers and arrange to get an assessment from a healthcare provider.

Conference fee: Standard fee for foreign participants: 300 EUR; Standard fee for domestic participants: 12000 RSD; **Discounts**: Members of SCS, Invited lecturers and PhD Students: 50%; Plenary lecturers & the last year winners (oral and poster presentations): Free of charge.

Invoice and bank details for Conference fee payment: Banka Intesa ad Beograd, Account No. 160-380150-55, notification: Conference fee – participant name.

Paying of the conference fee and Gala dinner at site will be available only in cash.Registration:26. 09.2022 (8.00-9.00A.M.-2nd Floor) & 27.09.2022 (8.00-9.00A.M.-1st Floor)Posters instalation:26.09.2022 (16.30-17.00) & 27.09.2022 (8.30-9.00) CLUB SASAAfter each session, participants should remove their posters!

Useful telephone numbers: Police:192 Firemen:193 Ambulance:194

Taxi services: For the taxi services from Belgrade Nikola Tesla Airport to any destination in Belgrade area and further, please contact TAXI INFO desk, located in the baggage area.

Time zone: Belgrade and Serbia are located in the Central European time zone region GMT + 1

Electricity: The electricity voltage in Belgrade is 220V. Electrical outlets are standard EU. **Currency:** The official currency in Serbia is dinar, abbreviated RSD. Money may be exchanged in all banks and authorized exchange offices. Exchange rate for 1 EUR is around 118 RSD. Cash may be taken from ATMs 24 hours a day. Credit cards are accepted in shops, hotels and restaurants.

Water: Tap water in Belgrade is safe to drink.

Abstracts and papers publication: The official language of the conference is English.

Conference abstracts will be published in the **Book of Abstracts**.

Limited number of papers presented at the conference will be possible to publish in **Science** of **Sintering**.

Type of presentation: Visuals for oral presentations should be in Microsoft PowerPoint (.ppt or .pptx) or Adobe Acrobat Reader 9 (.pdf). Any animation or video files must be compatible with Windows 7 and Windows Media Player. Bring your presentation to speaking desk at the beginning of the day when your presentation will be. Posters should be prepared in dimension: 70x100 cm. The official language on conference is English.

Additional Conference information president@serbianceramicsociety.rs http://www.serbianceramicsociety.rs/about.htm

Recommended places near the Conference venue:

Hotel: Hotel Palace, Topličin venac 23; <u>http://www.palacehotel.co.rs/</u> Exchange office: "Hulk", Vuka Karadžića 4 Tourist Information Centre: Knez Mihailova 5, <u>http://www.tob.rs/en</u>

Investigation of the possibility of application of mechanochemically activated sodium carbonate in environmental protection

Nataša G. Đorđević¹, Slavica R. Mihajlović¹

¹Institute for Technology of Nuclear and Other Mineral Raw Materials, Belgrade, Serbia

There is a growing problem in the world of eliminating carbon dioxide and the atmosphere, which leads to the greenhouse effect, and causes a constant increase in the average temperature on Earth. Cutting large green areas in order to obtain space for cattle breeding is especially present in Brazil and Argentina. Increasing CO_2 concentrations and rising air temperatures are leading to the melting of large ice masses causing rising sea levels. That is why the issue of eliminating carbon dioxide from the air is a priority in environmental protection. Sodium carbonate samples were activated for 1 to 28 minutes in a vibro mill. The increase in the free surface area of the activated samples was monitored by the BET method, and the state of the crystal lattice by the diffraction method. The analysis of the results showed a significant increase in the free surface of the samples due to grinding in a vibro mill. Such activation of sodium carbonate would enable a significant increase in the sorption properties of sodium carbonate and its application.

The evaluation of mixed Al,Co pillared catalyst in degradation of tartrazine dye in presence of peroxymonosulfate

<u>M. Ajduković</u>, N. Jović-Jovičić, S. Marinović, G. Stevanović, T. Mudrinić, A. Milutinović-Nikolić, P. Banković

University of Belgrade, Institute of Chemistry, Technology and Metallurgy, Departmentr for Catalysis and Chemical Engineering, Njegoševa 12, 11000 Belgrade, Serbia. (marija.ajdukovic@ihtm.bg.ac.rs, marija.zunic@nanosys.ihtm.bg.ac.rs)

In this work smectite pillared with mixture of aluminium and cobalt poly(hydroxo metal) cations (Al,Co-PILC) was synthesized and tested as catalyst in degradation of food dye tartrazine by peroxymonosulfate. The Al,Co-PILC was obtained using a common procedure consisting of the following steps: grinding, sieving, Na exchange, intercalation, drying and calcination. Co^{2+} to (Al³⁺+Co²⁺) molar ratios in the pillaring solution was 10%. Catalytic tests were carried out in a semibatch reactor under stirring and constant temperature maintained by circulation of thermostatic fluid using Julabo MC 4 heating circulator. Initial dye concentration was 50 ppm in the presence of excess of peroxymonosulfate. Decolorization of tartrazine solution was monitored using UV-Vis spectrophotometry at λ_{max} = 426 nm. The influence of the mass of the catalyst and reaction temperature was investigated.

Catalyst mass and temperature increase were beneficial for dye degradation rate. The catalytic process at 30 °C reached 97% for 120 min and besides decolorization included further degradation of products of tartrazine oxidation. At 50 °C complete decolorization occurred for only 30 min. This work showed that application of smectite pillared with mixture of
